

Complete Solutions for Hospital and Health Care Applications

GEORG FISCHER
PIPING SYSTEMS

GF Piping Systems – Your Global System Provider for Safe and Reliable Water Quality for Hospital applications

GF Piping Systems offer custom-made solutions for each building. These references indicate our long-term expertise in building technology and our excellent customer relations. With GF Piping Systems you benefit from a professional partner for application-orientated plastic piping installations from Water Treatment to Cooling. For Hospital applications, Hygiene is a major concern so quality products are therefore essential. We are proud to count the below mentioned hospitals as our customers.

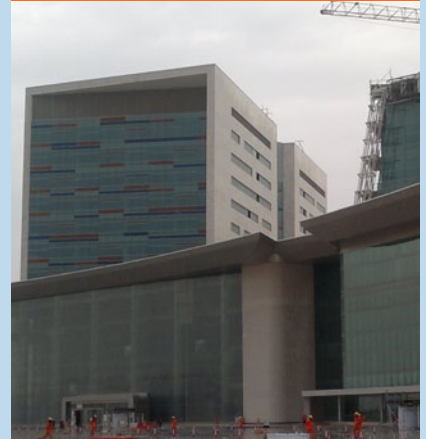

Sidra Hospital
Doha

Al Seef
Kuwait

Hamad Medical City
Doha

Healthcare City
Dubai

Maternity and Children Hospital
Dammam

American Hospital
Dubai

Added Services for complete pipework for Hospital and Healthcare applications

In addition to our wide range of pipes, fittings and valves in 20 different thermoplastic materials, GF Piping Systems offers a customisation service. Qualified staff can pre-assemble pipes and fittings in any of our materials in order to save site labour cost and ensuring site deadlines are met. We can translate our customers' drawings into convenient size assemblies for transportation using our CAD facility. Training programmes both on and off site, carried out as certified jointing training if necessary, complement our services. GF Piping Systems has earned an enviable reputation in successful completion of significant prefabricated building services projects and recognises the customer's needs in delivering specialist orders when required.

Hot and Cold Water

INSTAFLEX (PB)
iFIT (PB/ML)
